Education

2018 - 2020 **M.A., Statistics**

Seongbuk-gu, Seoul, South Korea

Specialization: Data Mining

Korea University

2012 - 2017 **B.A., English Language and Literature**

Ewha Womans University

B.S., Statistics

Seodaemun-gu, Seoul, South Korea

GPA: 4.23/4.5, 94%

Relevant Coursework: Computational Statistics and Lab; Bayesian Statistics and Statistical Computing; Multivariate Statistical Analysis; Data Mining

Work Experience

Sep 2015 -

Dec 2015

Customer Service

MillwardBrown Media Research Company

- Worked on analyzing quantitative and qualitative data through various types of surveys
- Made initial reports about potential customers based on meetings with them. The reports consisted of their region, income, and preference on products such as convenience foods, luxury cars, and diapers

Extracurricular Activities

Nov 2016 -

Feb 2017

Bigdata Campus Project

Seoul Metropolitan Government Bigdata Campus

- Visualized bicycle path patterns using 5-years path data with Seoul Bigdata Campus and NGO (Green Transport)
- Figured out the strength of connections between cities by using Social Network Analysis (SNA)
- Received an award certificate from Seoul government 🏆

Sep 2015 -

Jul 2016

Member of Bigdata Club

BOAZ

- Learned computational languages, R and SQL
- Discussed present issues - recommendation system, AI, machine learning and etc.- by reading articles in DBR (Donga Business Review Magazine)
- Had 6-months project named "Calculation based on Images with CNN Algorithm" and presented it on BOAZ conference with three club members

Sep 2014 -

May 2015
